THE COMPANY

Phase Matrix, Inc. was founded in 1999 when it purchased substantially all the assets of EIP Microwave, Inc., a long-established manufacturer of microwave test and measurement instruments. These products are highly accurate electronic tools used in the development, manufacture and field maintenance of a wide variety of commercial communications and defense electronics systems worldwide. Phase Matrix produces and markets selected EIP products as well as develops and manufactures products for major OEM customers. In 2005, the company added a microwave components product group that supplies a variety of customers worldwide. For more information, visit www.phasematrix.com.
